WHY
HOTHEADS?

JOIN THE REVOLUTION

Hotheads Hair Extensions® is a ground-breaking extension system that uses medical-grade adhesive to add fullness, length and color in less than an hour. Be in and out of the salon with a gorgeous set of extensions that are seamless and appear completely natural.

QUALITY IS THE KEY

One of the key components to great extensions is hair quality. Our products are hand-assembled using 100% Remy human hair. This means that all hair is laid in the same direction with the cuticle perfectly aligned and intact, providing an extension that mimics your natural hair.

Many extension companies today strip the hair of its natural cuticle and coat it with a silicone agent which diminishes the quality of the hair with each wash. Unlike other brands, Hotheads developed a unique process that improves, rather than compromises, the integrity of the hair. This commitment to excellence and innovation is one of the many reasons that Hotheads continues to be the market leader in extensions.

FAST APPLICATION

Application is quick and easy. Hotheads Hair Extensions are designed to allow your hair to fall naturally over one tape tab and are secured with a second tape tab. This creates a watertight seal, allowing you to wash, rinse, swim and work out with your extensions.

LENGTH CHART

Hotheads Hair Extensions come pre-layered in their packaging allowing for a natural and tapered appearance. Our shortest length has strands that range between 10"-12" and our longest length has hair that ranges between 22"-24". Because of this, blending is made very simple, with minimal trimming necessary.

HOTHEADS HAIR EXTENSIONS ARE OFFERED IN:

10" - 12"
14" - 16"
18" - 20"
22" - 24"
